

Reptile associated Salmonellosis Survey (2003-2023)
Prisma Chart Flow

Reasons for exclusion:

1. Lack of information on reptile contact (species of reptile, kind of contact..) (n= 6)
2. Reptiles only mentioned as potential risk but no further investigation (n = 16)
3. No clear association of illness in humans to contact with reptiles (n = 15)
4. Language (Included were: English, German, French) (n = 5)
5. Review itself (n = 1)
